The installation of the heating product shall be in accordance with all manufacturer's instructions and local and national codes. These combinations are provided for general reference purposes only. There may be alternative heating products and installation types for your particular project. Please consult with WarmlyYours to discuss any possible alternatives. Consult the floor covering manufacturer for product-specific or installation requirements.

*Please note that our TempZone Floor Heating Ruler Cable is not listed for use under nailed hardwood flooring. However our general TempZone Floor Heating Cable is approved for that use.
